

VCP1600

PRESSURE PLATE

An accurate and cost-effective way to **identify the plantar pressure profile** with 3 types of scanning: Static, Dynamic and Postural scans.

Real time results

Plantar comparison

Easy setup

Visualisation of Pressure Data

Visualisation of the centre, maximum and average pressure calculations, as well as weight distribution pattern. Easy to use for everyday communication with patients and practitioners by the various measuring possibilities and a 1:1 printed report option.

Efficient Patient Analysis

Provides an easy and efficient patient follow-up (up to 4 exams comparison), real time display, immediate storage or load of recorded exams. Auto calibration system, requires no recalibration over the lifespan of the platform.

Technical Specs

Dimensions
565 x 612 x 22 mm

Weight
± 3.5 kg

Active area
400 x 400 mm

Thickness
9 mm

Nr of sensors
1600 (40 x 40)

Max. pressure
100 N/cm²

Required OS
Windows 10 OS
